TO BE COMPLETED BY A LICENSED MEDICAL PROFESSIONAL

The above-named student is requesting accommodation(s) due to their medical condition under the Americans with Disabilities Act. To consider this request, as well as to ensure the provision of reasonable and appropriate accommodations, Randolph-Macon College (RMC) requests that current and comprehensive verification be provided by a qualified professional. The qualified professional should be a licensed or otherwise properly credentialed individual who has undergone appropriate and comprehensive training and has no personal relationship with the individual being evaluated. The individual making the diagnosis should have credentials directly related to the condition being reported (e.g., an orthopedic limitation should be documented by a physician, not a licensed psychologist). While third-party documentation may be sufficient to establish the presence of a disability, it is not the definitive information that informs the final determination for reasonable accommodations.
