

Cost Estimated at \$5,850

Full payment due by September 2, 2013. No refunds guaranteed after that date.

Cost will cover all air travel, airport transfers, lodging, all tours (4 in Australia and 2 in New Zealand), some meals (lunches during the tours) and breakfast (if included as part of the lodging), entry fees into a wild life park and the Australian Wine Center. Most meals are not included.

Important Note:

Students must make the deadlines for deposits and full payment as instructed below. **October 1st** is the last day to ADD or DROP J-term study/travel courses. For the College's cancellation and refund policy for study/travel courses, visit the J-term section on the OIE's website (www.rmc.edu/studyabroad).

Date	Amount Due
At time of registration	\$100 non-refundable deposit (students must take their check and signed add-form to Registrar's Office to be added to the course. \$100 is applied to the 50% deposit due by Aug. 1st - transferrable if student changes to another study/travel course before Oct. 1st**)
Prior to Aug. 1	50% deposit (payable by check, due to Business Office. Non-refundable after October 1st**)
Aug. 1 - Sept. 30	\$100 deposit at time of registration plus 50% of program fee due immediately , if student is adding a J-term study/travel course during this period
By Oct. 1	100% students' J-term study/travel program fee due in full. Students who have not paid in full by October 1st will be withdrawn from the J-term study/travel course. Course Instructor will determine amount of refund available to withdrawn students**

*** unless an earlier deadline was established by the instructor.*

J-term Need-based Travel Scholarship

Deadline for Returning Students - May 10, 2013

Deadline for New Students - September 20, 2013

To be considered, you must be pre-registered for a J-term 2014 study/travel course and have completed a 2013-2014 Free Application for Federal Student Aid (FAFSA).

Award notifications will be sent out mid-June to students' R-MC email addresses. Complete details are listed on the application available at www.rmc.edu/FAForms.

Randolph-Macon
College

Ashland, Virginia

J-TERM 2014
STUDY/TRAVEL
COURSE

**AUSTRALIA &
NEW ZEALAND**

CHEM 160
Chemistry of Wine

Instructor:
Prof. Serge Schreiner

Course Description:

Students will become familiar with the various systems of classification of wine and develop an understanding of the grape plant, varietal character and taxonomy. The course will include detailed coverage of the production of wine from vine planting and vineyard care to harvesting, fermentation and bottling. In addition, students will become familiar with the major wine-producing regions of the world and learn how terroir affects wine quality.

Tentative Itineraries & Activities:

The course will be taught for about 10 days at Randolph-Macon College with the remainder of the time in Australia and New Zealand. We will start off our journey in Melbourne (Victoria) where we will visit two major wine producing regions, the Yarra Valley and the Mornington Peninsula. Next on the agenda is Adelaide in South Australia where we will visit

three major wine regions, McLaren Vale, Adelaide Hills and the Barossa Valley. You will have the opportunity to make your own wine at Penfolds and you will be given a chance to visit a wildlife park. We will visit Sydney (New South Wales) for a few days on our way to the South Island of New Zealand. During our last stop in Queenstown, you will have the opportunity to experience a jetboat ride and visit the South Island's most famous wine region, Central Otago.

Pre-requisites:

Students must be over 21 years old

Travel Dates:

January 16 – January 31, 2014 (tentative)

Faculty:

Serge Schreiner, a native of Schiffange, Luxembourg, came to Randolph-Macon College in 1986 and is currently Jackson Professor of Chemistry and Chair of the Department of Chemistry. He received his Bachelor of Science Degree in Chemistry from Miami University of Ohio, and his Ph.D from Clarkson University in upstate New York. His major focuses there were Inorganic Chemistry and Physical Chemistry. He subsequently served as a Summer NSF Research Fellow in Solid State Chemistry at Northwestern University. His research interests are in organometallic chemistry and the usage of transition-metal complexes as anti-cancer drugs. Currently, he teaches general chemistry, inorganic chemistry, organometallic chemistry, and Science and the Cinema. He has travelled extensively in Europe and has led J-term study/travel groups to California, Australia and New Zealand.
